U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On August 3, 1975
 - Export shipments in
Current Marketing Year
 - Daily Sales reported
August 4 - 12, 1975
- As Reported by Exporters

NOTICE: The new marketing year for cotton, cottonseed and rice began on August 1. Outstanding sales for delivery in 1974-75, against which deliveries were not made by July 31, were carried forward by reporting exporters for delivery in 1975-76. Special tables showing summary data for the 1974-75 marketing year for these commodities are published at the end of the report.

EXPORT SALES REPORT

Comments on release of August 14, 1975 (based on reports from exporters during the week ending August 3, unless otherwise noted):

GRAIN AND SOYBEAN SALES: At a press conference following release of the August 11 crop estimates, Secretary of Agriculture Earl L. Butz announced that the Soviet Union and U.S. exporters have been requested to refrain from contracting for additional quantities of U.S. grain for 1975/76 shipment until more precise information is available concerning the size of the 1975 U.S. grain crops. Secretary Butz termed the USSR a "valuable customer" and stated that he expects additional grain sales to the USSR from the 1975 U.S. crops at a later date. On August 12, Secretary Butz met with Japanese Minister of Agriculture and Forestry Shintaro Abe. Minister Abe suggested annual targets for Japanese purchases from the U.S. during the next 3 years, subject to review at least once a year, as follows: wheat, 3 million metric tons (MT); feedgrains, 8 million MT; and soybeans, 3 million MT. Secretary Butz stated that the U.S. has full intentions of meeting the needs of traditional customers, such as Japan.

SOVIET GRAIN CROP ESTIMATE REDUCED: The total 1975 grain crop in the USSR is now estimated at 180 million MT, down 5 million MT from the July 24 estimate and well below the Soviet target of 215.7 million MT. Production is now put at 85 million MT for wheat, 80 million MT for feedgrains, and 15 million MT for miscellaneous grains.

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 increased by 344,500 MT. Commitments to the European Community (EC) decreased by 63,000 MT while increased commitments were reported for Japan (144,000), other West European countries (101,600 MT), and Brazil (73,200 MT). The only major reported purchase since August 3 was made by Nigeria (101,600 MT) and reported on August 7. U.S. wheat production in 1975 is now estimated 1/ at a record 58.3 million MT, 19 percent above last year's record crop. U.S. wheat exports in 1975/76 are now projected 2/ at between 31.3 and 36.7 million MT, compared with the 1974/75 level of 28.3 million MT.

Feedgrains: The apparent export commitment for corn in 1974/75 increased by only 22,400 MT. Increased commitments of 119,000 MT to unknown destinations did not offset decreased commitments to the EC of 163,900 MT. Sales for 1975/76 shipment increased by 937,600 MT, with major increases recorded for East Germany (201,600 MT), West Germany (227,000 MT), the Netherlands (107,600 MT), and Italy (76,200 MT). Total 1975/76 U.S. feedgrain production is now forecast 1/ at a level 25 percent above that of 1974/75. U.S. corn production in 1975/76 is forecast 1/ at a record 148.6 million MT, 26 percent greater than the 1974 crop. U.S. corn exports in 1975/76 are now projected 2/ at between 33.0 and 38.1 million MT, compared with 27.9 million MT in 1974/75.

Soybeans: The apparent export commitment for 1974/75 decreased by 43,800 MT. Exports during the week totaled 178,200 MT, up slightly from those of the previous week, but approximately 55,000 MT below the average weekly rate of exports through 48 weeks of the marketing season. The U.S. 1975 soybean harvest is now forecast 1/ at 39.7 million MT, 18 percent above the 1974 outturn. As U.S. soybean exports have been running slightly above earlier forecasts, the export projection for 1974/75 2/ has been raised from 10.9 million MT to 11.2 million. The carryover on August 31, 1975, is expected to total 6.0 million MT with a further increase likely a year later 2/. The export outlook for U.S. soybeans in 1975/76 is brightening because of reduced grain and oilseed crop prospects in the USSR and EC, and the export projection for 1975/76 2/ has been raised from 10.9 million MT to 11.2 million MT.

Soybean Meal: The apparent export commitment for 1974/75 decreased by 85,800 MT, essentially all attributable to cancellations in the unknown destination category. Outstanding sales to Hungary increased by 6,000 MT and by a lesser quantity to Canada. Exports of 60,300 MT were primarily to France (24,300 MT), Italy (11,200 MT), West Germany (10,000 MT), Canada (5,200 MT), and Belgium (4,900 MT). The export estimate for 1974/75 has not been changed 2/.

Soybean/Cottonseed Oil: The apparent export commitment in 1974/75 for soybean oil declined by 21,600 MT, primarily on cancellations in the unknown destination category. The export estimate for 1974/75 has not been changed 2/. Exports totaled 10,100 MT, including 8,700 MT to Iran. The apparent export commitment in 1974/75 for cottonseed oil increased by 4,500 MT and exports increased to 13,400 MT, including 9,900 MT to Egypt and 3,500 MT to unknown destinations.

Cotton: Upland cotton exports totaled 3.8 million running bales (RB) during 1974/75 while Pima shipments totaled 11,700 RB. Almost 1.2 million RB of registered Upland sales were carried forward into the 1975/76 marketing year. Together with prior sales for 1975/76 delivery, this places outstanding export sales on August 1 for 1975/76 shipment at 1.9 million RB. Virtually all of the sales carried forward from 1974/75 are registered to Far Eastern countries, most prominent of which are: Republic of Korea, 36 percent; Republic of China (Taiwan), 24 percent; and Japan, 14 percent. Exports during 1974/75 were 1.9 million RB less than those of a year earlier, according to the preliminary data. About three-fourths of the decline came in shipments to the 5 leading U.S. markets--Japan, Republic of Korea, Republic of China (Taiwan), Hong Kong, and People's Republic of China.

The first estimate of the 1975 U.S. cotton harvest was 9.4 million bales (480 lbs. net weight), 18 percent below the previous year's output. Domestic mill use is expected to recover from 1974/75's depressed levels. Even so, 1975/76 export availability exceeds the present export projections of 3.6 - 4.0 million RB by around 1 million bales. Current inactive world demand reduces somewhat the significance of the increasingly non-competitive asking prices for most U.S. qualities.

1/ Crop forecasts issued August 11, based on conditions as of August 1.

2/ Supply and Demand Estimates released August 12.
